

ScriptLogic Corporation, is a worldwide leader in network administration software for Microsoft Windows-based networks. ScriptLogic's award winning suite of desktop, server and Active Directory management products help empower network administrators to proactively save time, increase security, and maintain regulatory compliance.

ACTIVE DIRECTORY

ACTIVE ADMINISTRATOR

Active Administrator is a comprehensive management and auditing solution enabling administrators to efficiently manage Active Directory Security and Group Policy in Windows 2000 and 2003-based networks. Extensive searching and reporting, automated permissions management and offline GPO editing and rollback let the administrator manage security, demonstrate regulatory compliance and increase productivity.

DESKTOP MANAGEMENT

DESKTOP AUTHORITY

Desktop Authority, the leading desktop management platform for Windows-based networks, significantly reduces the total cost of desktop ownership and helps enterprises meet compliance and security requirements by giving them proactive, centralized management of desktops and applications. Patch Management, anti-Spyware and Device Lockdown options offer comprehensive protection against data theft and attack.

DESKTOP AUTHORITY IMAGE CENTER

Desktop Authority Image Center reduces the cost and time required to provision and re-deploy desktops and servers by offering simple, centralized control over the capture, customization and deployment of disk images. Desktop Authority Image Center enables rapid deployment of PCs with corporate standard operating systems, patches, service packs and applications..

DESKTOP AUTHORITY MSI STUDIO

Desktop Authority MSI Studio reduces the cost of application ownership and software distribution by simplifying the creation, modification and deployment of application installers. Desktop Authority MSI Studio's comprehensive tool set empowers administrators to develop, enhance and test Windows Installer (MSI) packages for pain-free software distribution to desktops across the enterprise. MSI Studio integrates with Desktop Authority for simplified deployment and exports application packages directly into Microsoft's Systems Center Configuration Manager 2007.

BRIDGETRAK

BridgeTrak help desk software for windows Easy-to-use, scalable, client-server application offering the features and benefits most requested by help desk, call center, technical support, and IT professionals.

SERVER

ENTERPRISE SECURITY REPORTER™

Enterprise Security Reporter is an agent-less, fast, comprehensive discovery and reporting solution for analyzing file security, group memberships, Active Directory, printers, file shares and other security settings on Windows servers. Enterprise Security Reporter is essential for administrators burdened with compliance reporting and security audits, automating report generation and simplifying analysis.

FILE SYSTEM AUDITOR™

File System Auditor, a unique solution for recording Windows file server activity, allows administrators to audit file access, generate easy-to-understand reports, and create alerts tied to file system events. File System Auditor protects sensitive information by reporting attempts to access and modify files and folders, who did it and when.

PATCH AUTHORITY ULTIMATE™

Patch Authority Ultimate, ScriptLogic's comprehensive, enterprise-class patch management solution, enhances security and simplifies the process of updating Windows desktops and servers from a central location. Patch Authority Ultimate's rich interface eases the task of updating desktops and servers with the latest patches, and deploys updates in just two simple steps.

SECURE COPY™

Secure Copy is a powerful and comprehensive data migration solution that automates the copying of data between Windows NT/2000/2003 servers without agents or scripts. It is the perfect solution for networks that are migrating from NT4, consolidating file servers or moving to a NAS/SAN solution.

SECURITY EXPLORER™

Security Explorer provides a powerful, real-time interactive platform to manage access controls and security on Microsoft servers and workstations. Security Explorer gives the IT professional the power to manage, search, duplicate, backup and recover permissions and security across the network from a single centralized console on Windows, SQL and SharePoint servers.

EDUCATION SERVICES

SCRIPTLOGIC EDUCATION SERVICES offers hands-on labs focused on implementing, managing, troubleshooting and supporting ScriptLogic Products. Professional training courses through select, Authorized Reseller Partners worldwide and by ScriptLogic senior engineering staff at ScriptLogic's corporate headquarters in Boca Raton, Florida.
